

ABOUT GLOBAL HORSE

I am Floor Schoenmakers. Owner of EHS communications since 2001.

EHS stands for Euro Horse Sales, something the company started 23 years ago. This was a website where sport horses were offered and this was the start of EHS communications. I have been working in the horse world since I was young. I myself rode horses for a dressage horse trading stable for many years and bought and sold many horses through events and auctions that I also co-organised.

EHS communications has now been an established organisation and communications agency in the equestrian industry for many years. Besides basic work in graphic and web design, event organisation and writing marketing strategies for equestrian entrepreneurs, we have established a number of our own brands. For example, we are the only agency with equestrian influencers with our agency Go Social. We have already recorded more than 100 podcasts with top equestrians at home and abroad with the HorseHeroes podcast. And we promote global equestrian sports with Global Horse, organising horse holiday weeks in various themes, workshops and clinics in Portugal and the Netherlands.

And the latter gave me the idea to add another component! Since the end of 2022, I have now been to Portugal 10 times and visited dozens of amazing riders, breeders and equestrian accommodations during all these trips.

I have been to the most varied locations. From the famous Golega fair and amazing beach rides in Comporta, visiting the famous Portuguese School of Equestrian Art to Portugal's best

breeders. Through my amazing collaboration with two travel companies, I have visited the most beautiful places, ridden the best horses and had the opportunity to take the most instructive lessons. And seen and got to ride very, very, very many different Lusitanos. And it was already clear to me during my first trip. These horses are something special. Brave, beautiful, energetic, sensitive with a heart of gold!

Partly because of my podcast HorseHeroes, I have spoken to dozens of breeders and riders about their passion and feeling for the special breed the Lusitano. So it is not surprising that people often ask me if I can keep my eyes open for a good horse. And that gave me the idea of mediating in the purchase of Lusitanos.

Kind regards,
Floor Schoenmakers

I travel to Portugal with up to 4 people each time on request.

During this trip, you will be completely unburdened and I will take you to Portugal's leading breeders to see and try out their horses. Breeders who normally do not open their doors so easily, but because of my previous visits have nevertheless collectively decided to take on this adventure.

- Prior to your trip, we carefully go through your requirements
- Selection of horses suited to your needs

- Some days lunch and dinner at the breeders' home (this is included in the price)
- Video recordings to watch back
- Guidance from me as a personal contact and confidant to both parties
